OCTOBER—Again, the writer begs to account for the non-appearance of the Bulletin during the past few months.

In order to build up and regain my health, it seemed best to relinquish some of the work, and therefore did very little actual labor for some time.

But we are back on the job, and will try to catch up. I am not going to write a long letter this time, but will offer instead some of the finest bargains and specials, that have ever been offered in hopes that every reader of this Bulletin will come and pay us a visit.

I would consider it highly complimentary anyhow to meet my Bulletin readers and learn if they wish it continued.

Sincerely,

ADOLF MÜLLER.

German Iris are easily grown in most any kind of soil, on level ground or on a slope, they are best of course in a sunny position, never plant them in a dense shady place.

The above plants are worth several times the price asked, we have them in large quantities, and we want to give the readers of our Bulletin the benefit of it. At these prices all plants should be called for.

ARBOR VITAE

Thousands of Arbor Vitae 1 to 3 feet in height at \$1.00 to \$3.00 each. These plants are all of them of the very best quality.

GOLDEN PRIVET

Hundreds of Golden Leaved Privet Hedge plants, bushy specimens, and also sheared ball shaped plants from \$1.00 to \$2.50 each. This is a really fine and attractive plant to use as single specimen or mixed in with an evergreen planting.

HEMLOCK SPRUCE

A block of Hemlock Spruce, every tree a specimen; very bushy, clean, thrifty young trees, \$2.50 to \$5.00 each. Hemlocks must be seen to be appreciated. They are to me the very finest of all evergreens. If I had but one vote to say which I would like, and it could be but one, I'd promptly and without any hesitation say, "Hemlock Spruce."

CATALPA BUNGEII

Catalpa Bungeii, Chinese Umbrella trees of our own growing. We have many thousands to offer this fall at \$2.50 each; these trees are straight as a die, with fine tops on them; come and let us show them to you.

We have just 100 acres of fine ornamental trees and shrubbery, well grown and all good stock. We invite you to see it and make your own selection.

We have acres of fine evergreens of all kinds as pretty as pictures, costing \$1.00 to \$3.50 each.

Our stock of flowering shrubs is as fine as can be, representing all kinds so that we have some in bloom all the time.

Be sure to look up our specials, they are genuine and worth while investigating.

Respectfully,
